General Information

General information	Innovative. Interdisciplinary. International. Since 1477. These have been the University of Tübingen's guiding principles in research and teaching ever since it was founded. With this long tradition, the University of Tübingen is one of the most respected universities in Germany. Its institutional strategy was successfully selected for funding in the Excellence Initiative sponsored by the German federal and state governments, making Tübingen one of Germany's eleven universities distinguished with that title of excellence. Tübingen has also proven its status as a leading research university in many national and international competitions – in key rankings Tübingen is listed among the best universities for the Humanities and Social Sciences as well as for Science and Medicine. With its broad spectrum of subjects, the University of Tübingen provides a wealth of opportunities for interdisciplinary collaboration. And such close cooperation on research extends beyond the University and around the world. The University of Tübingen has joint research projects at all levels with other institutions of higher education, with research institutes and with industry. The University's excellence in research offers optimal study conditions to students who come to Tübingen, combined with the opportunity to emphasize individual interests along the way. The attractive study environment is reinforced by many additional services, such as the Language Center, interdisciplinary lectures in the Studium Generale and the state-of-the-art University Library. The University motto speaks for itself: attempto – I dare!

Accommodation

Is university-administered accommodation available to exchange students?	The student dormitories are not administered by the University, but by the so-called “Studierendenwerk”, the Student Services Organization, which is not affiliated with the University. However, the University of Tübingen has a yearly quota of rooms that are reserved solely for exchange students. This means that housing in the dormitories can practically be guaranteed, given that the student applies before the deadline (31 May for the Winter Semester, 31 December for the Summer Semester). For an overview of the dormitories, please see here: http://en.my-stuwe.de/housing/halls-of-residence-tuebingen/ All rooms for exchange students are fully furnished single rooms with shared kitchen and usually shared bathrooms. We strongly recommend students to opt for student housing because of the difficult and expensive private housing market in Tübingen.
Where do students send their accommodation application?	Students can apply for housing online directly on the website of the Studierendenwerk . Contracts will be available for the duration of the whole semester only. There is a deposit of 400€ due upon arrival.
Is accommodation available over semester breaks?	Yes. Students can stay in their rooms until the end of the contract. Dorms are open year-round, students do <u>not</u> have to move out during breaks.

Visa Requirements

Are exchange students required to obtain a student visa?	Yes. Please contact us or the embassy if you are uncertain whether you need a visa prior to entering Germany. EU students do not need visas, but will receive their study permit once they are in Tübingen.
Are exchange students allowed to work?	<u>On campus</u>: Yes – more than the hours mentioned below (but students should ask for further information!) <u>Off campus</u>: Yes – 120 days per year when working 8 hours a day or 240 days per year when working 4 hours a day.
Is a special visa required for work?	The above-mentioned 120 days need to be marked in the student visa. Students have to inform the “Ausländerbehörde” about their work.

Medical Insurance

Are exchange students required to purchase a compulsory plan?	No. But they need to have unlimited health insurance at the time of matriculation. All students can either buy student health insurance at any German insurance company, or bring an international unlimited-cover health insurance with them. Europeans are automatically covered by their home insurance and only need to bring their ‘EHIC-card’.
